CHC23 | T subtype RNA candidates fused with supplied H&E histology

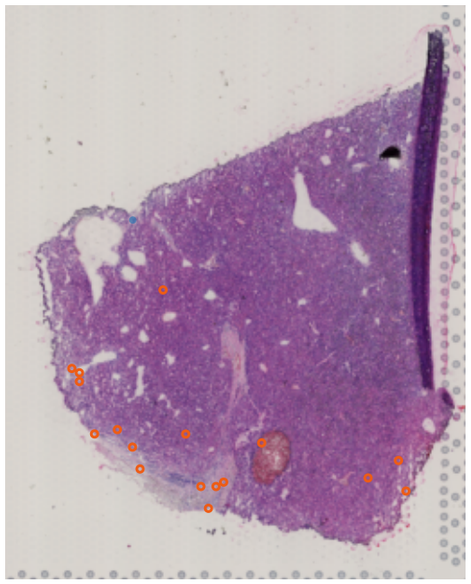

All CD8 candidates
Targets=18 | High sources=17

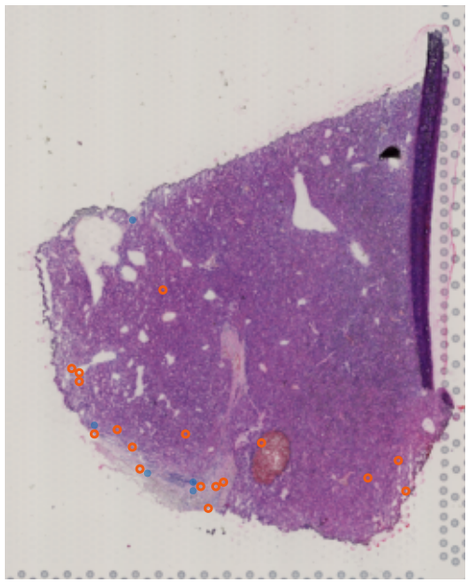

CD8 exhaustion
Targets=3 | High sources=17

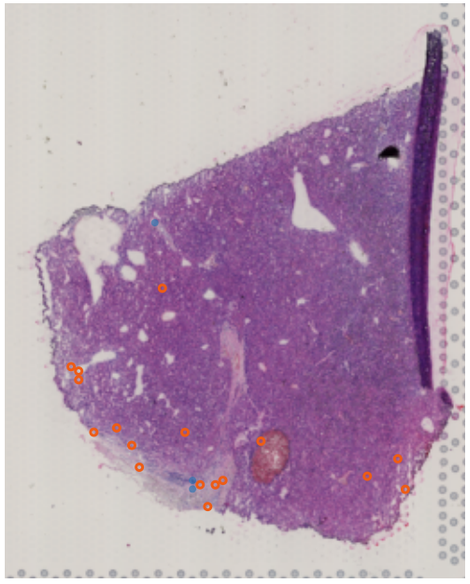

CD8 activation
Targets=1 | High sources=17

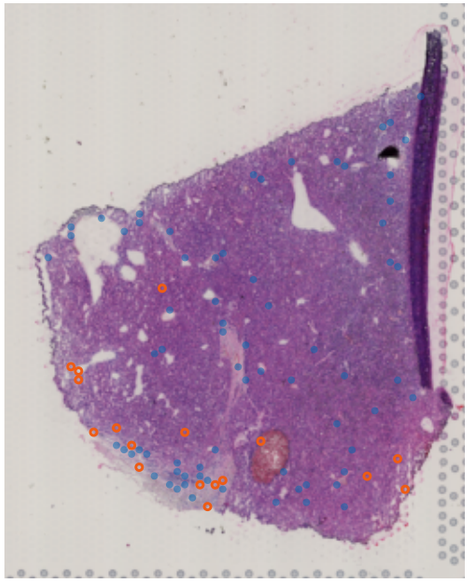

CD8 effector
Targets=5 | High sources=17

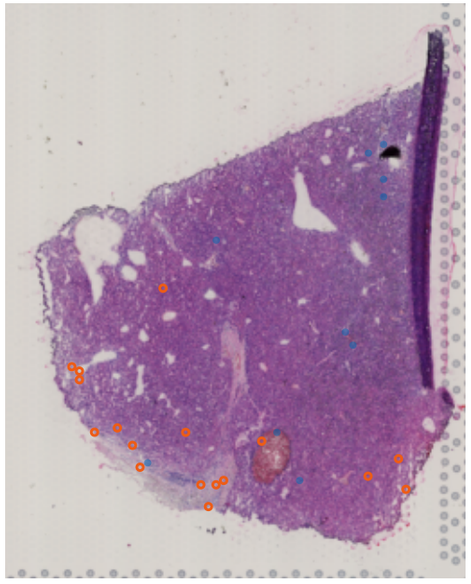

CD8 naive/memory
Targets=3 | High sources=17

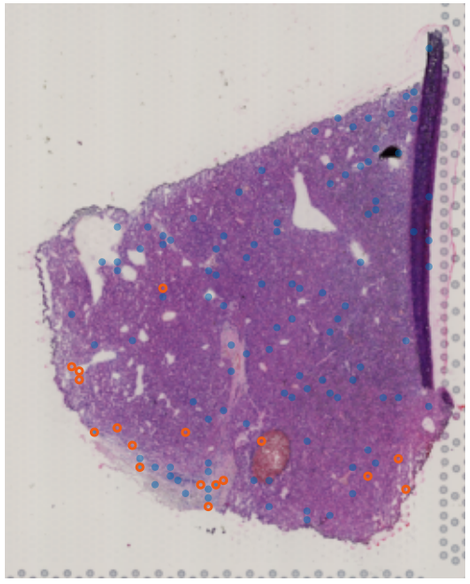

CD4 other
Targets=71 | High sources=17

Treg candidates
Targets=10 | High sources=17

T unresolved
Targets=106 | High sources=17

T subtype candidate (translucent spot) PGAM5-high myeloid RNA source (ring)
