Focused T-RNA neighborhood coverage by patient
Four overlapping CD8 programs; Treg uses a separate T-lineage gate
CD8 exhaustion supported
CD8 early activation supported
CD8 memory related
CD8 effector related
Treg supported (separate T gate)
A009: 196 high sources
B013: 92 high sources
C004: 14 high sources
C008: 80 high sources
