Spatial positions of candidate RNA-supported edges

CHC20: SPP1 → CD44
36 RNA-supported high-source edges

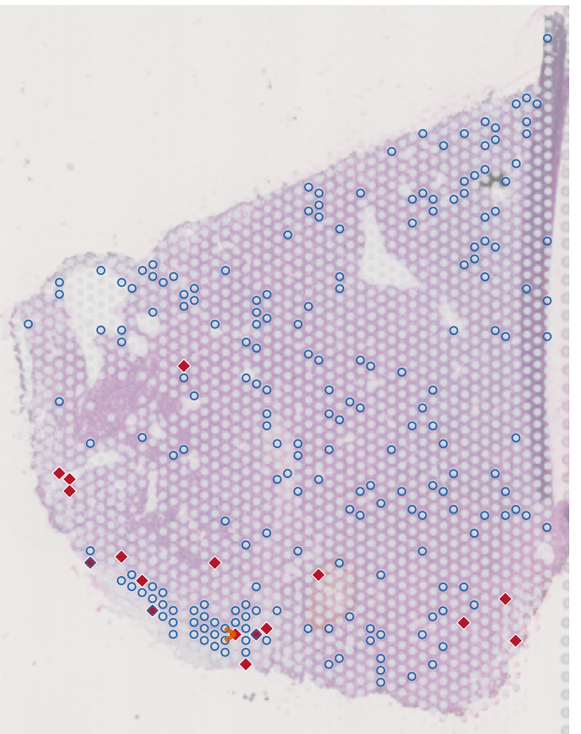

CHC20: PVR → TIGIT
1 RNA-supported high-source edges

CHC23: SPP1 → CD44
0 RNA-supported high-source edges

CHC23: PVR → TIGIT
2 RNA-supported high-source edges

PGAM5-high source RNA point T-enriched RNA point Adjacent co-detection

Source/target is the analytic orientation of a mixed-spot edge, not a demonstrated molecular signaling direction.
