# GSE245908: spatial RNA programs | common scale for each program

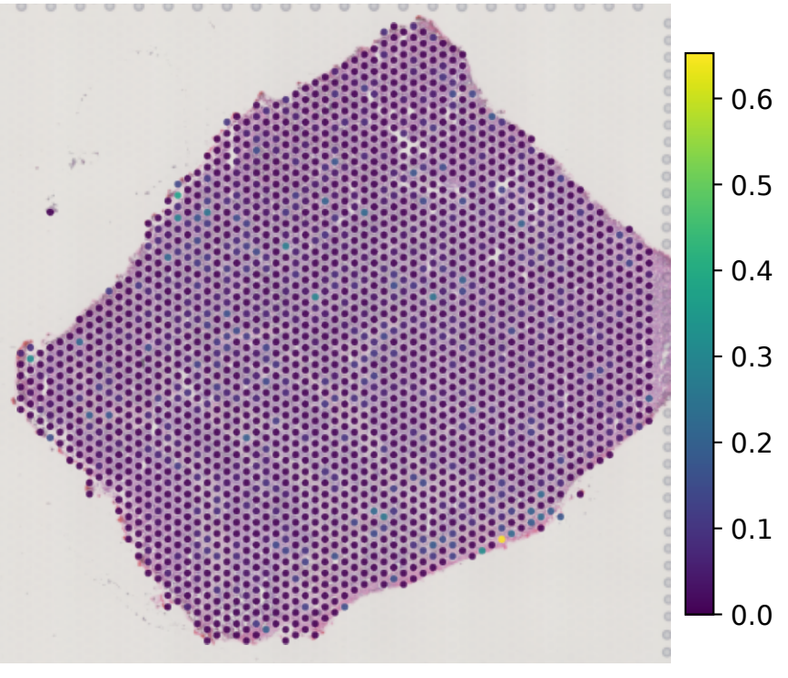

CHC20: Macrophage core

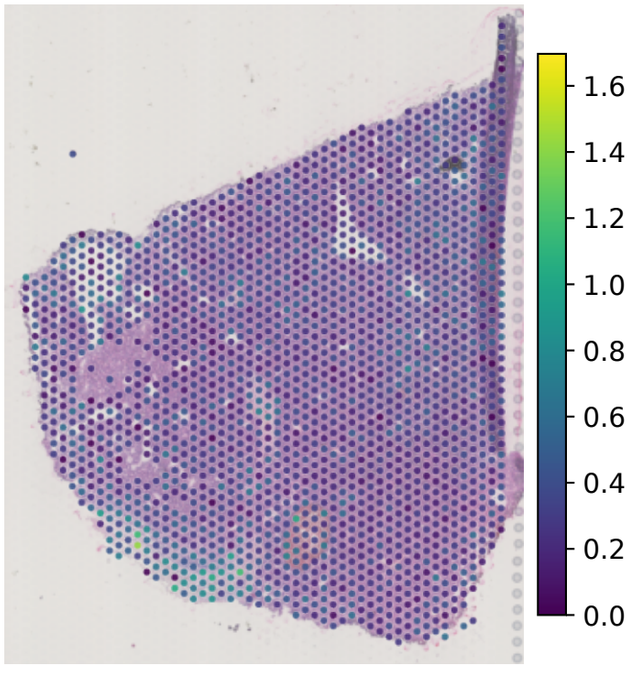

CHC20: T cell

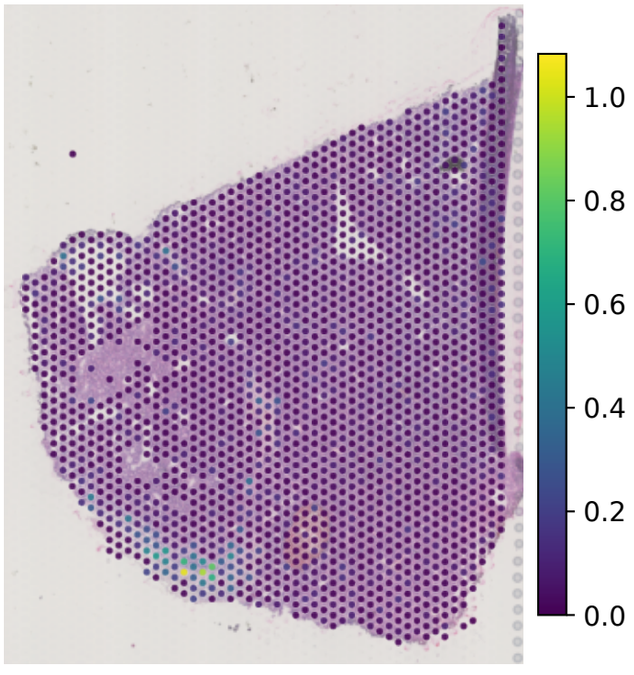

CHC20: Cytotoxic T NK

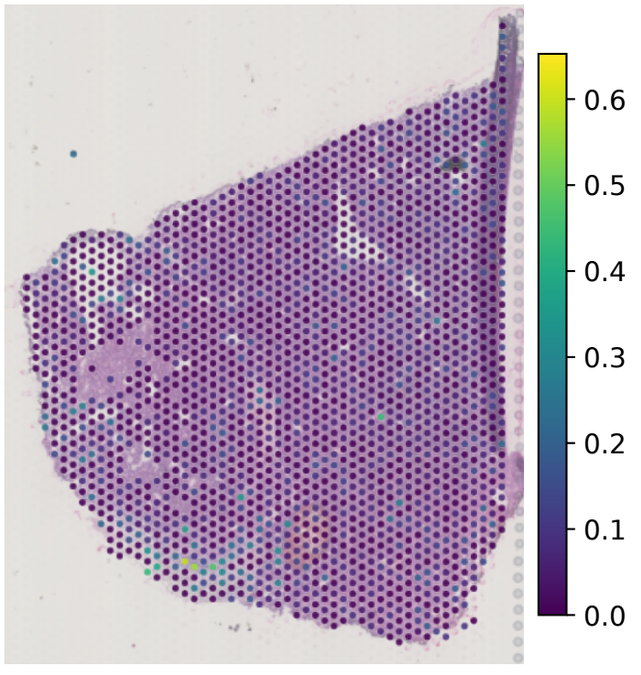

CHC23: Macrophage core

CHC23: T cell

CHC23: Cytotoxic T NK

Program = mean gene log1p(CP10k), including zeros. Scores are RNA signals, not cell fractions.
THBS1/TREM1 panel is exploratory; its genes also occur outside myeloid cells.
