GSE281759 | A009 | SPP1 macrophage-associated / T-RNA spatial neighborhoods

A009T1 | SPP1: all spots

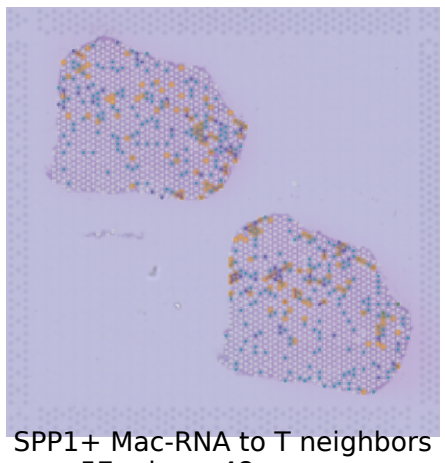

SPP1: Mac-RNA gate

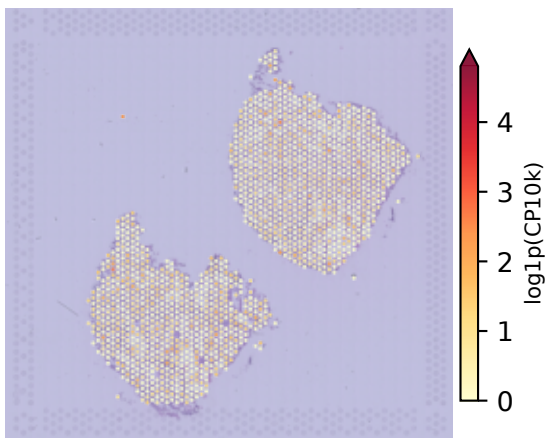

T-RNA states (can overlap)

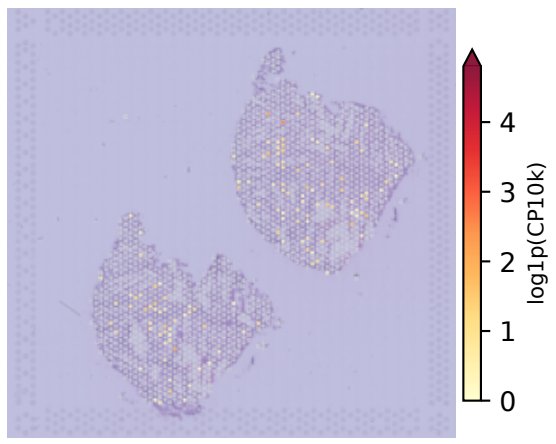

SPP1+ Mac-RNA to T neighbors
236 edges; 114 sources

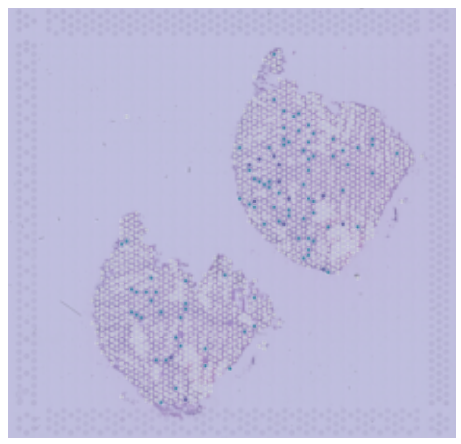

A009T2 | SPP1: all spots

SPP1: Mac-RNA gate

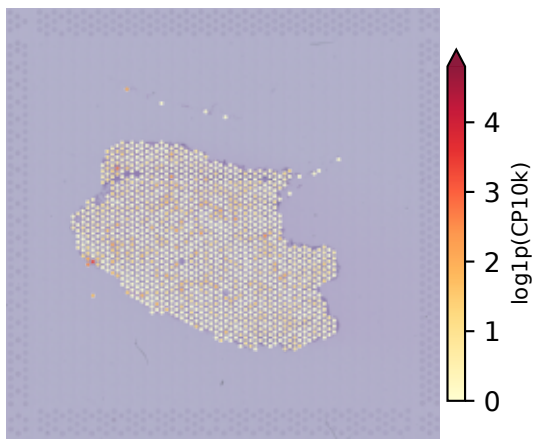

T-RNA states (can overlap)

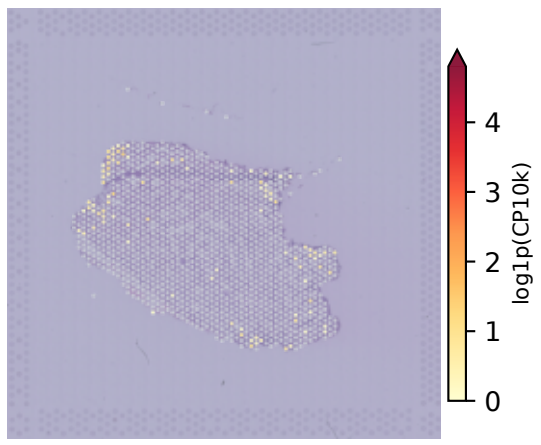

SPP1+ Mac-RNA to T neighbors
57 edges; 48 sources

A009T3 | SPP1: all spots

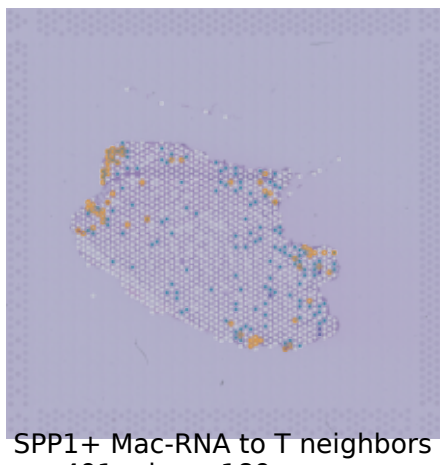

SPP1: Mac-RNA gate

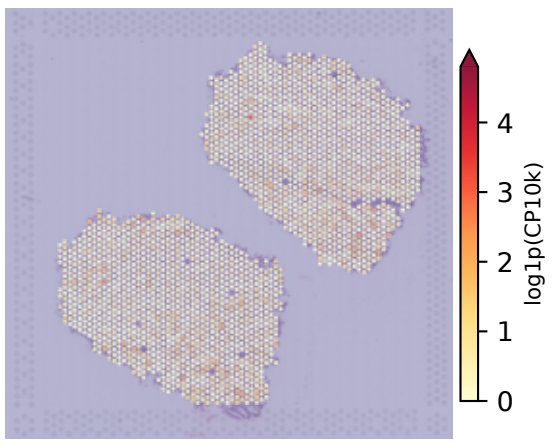

T-RNA states (can overlap)

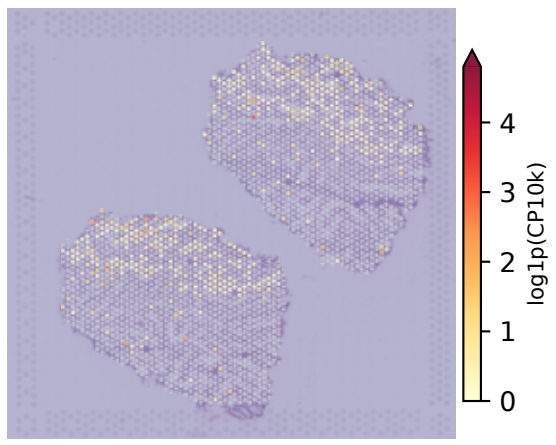

SPP1+ Mac-RNA to T neighbors
71 edges; 42 sources

A009T4 | SPP1: all spots

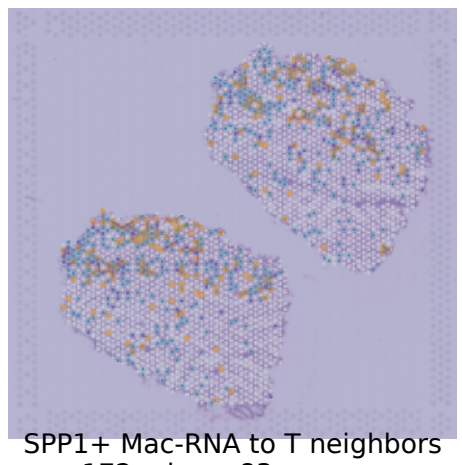

SPP1: Mac-RNA gate

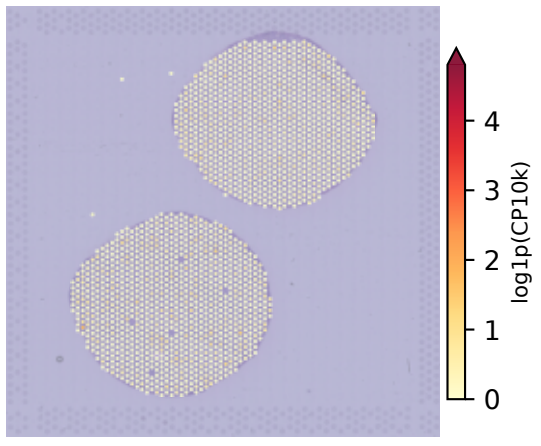

T-RNA states (can overlap)

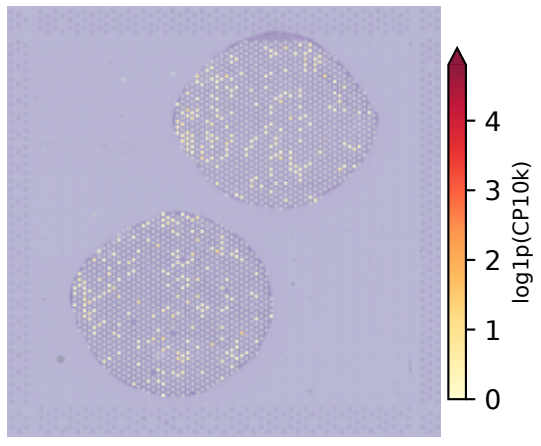

SPP1+ Mac-RNA to T neighbors
491 edges; 189 sources

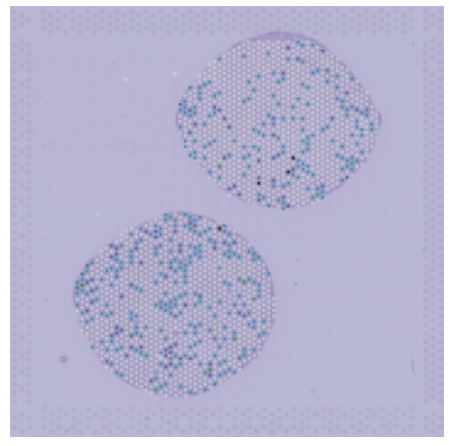

A009T5 | SPP1: all spots

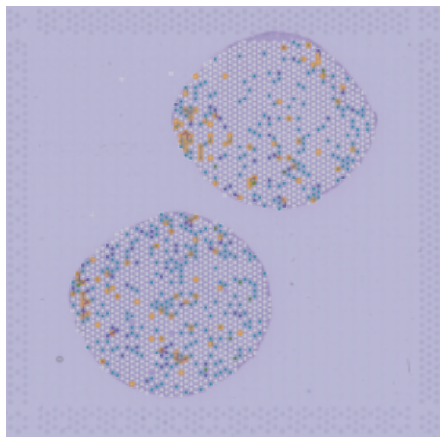

SPP1: Mac-RNA gate

T-RNA states (can overlap)

SPP1+ Mac-RNA to T neighbors
172 edges; 83 sources

T-RNA
Exhaustion-supported T-RNA
Activation-supported T-RNA
Both states
SPP1-detected Mac-RNA

Original H&E / true Visium coordinates; shared expression scales with display-only Q99 clipping. Lines: direct non-self spot neighbors.
Mixed spots, not single cells or proven communication. C004T1P: primary; C004T1R: recurrent.
